

FABRICATION CAPABILITIES

Complete Fabrication Capabilities:

- CNC burning and plasma cutting machines with travels up to 8ft. by 40 ft. UP to 15" thick steel burning capacity.
- Shearing equipment with capacities up to 1" thick and 12 ft. wide.
- Press brake equipment up to 1" thick by 10 ft. capacity. 18" Minimum Dia.
- Straightening presses up to 400 Ton Capacity.
- Plate bending rolls up to 1" by 10 ft. capacity. 18" Minimum Dia.
- Complete MIG, TIG, SUB-ARC and SMAW Welding Equipment.
- Stress Relieving Oven with capabilities up to 16 ft. wide by 15 ft high by 50 ft. long and 2200 degrees Fahrenheit with both zone controlling thermocouples as well as part sensing thermocouples.
- Complete Abrasive Blasting Facility and Finishing (coating/painting) facilities.
- Enclosed Fabrication Space (60,000 Sq. Ft.) services by 40 Ton Overhead Cranes.
